

NZGTMM webinar series 2025

Webinar 2: TTM Credentials Framework
8 April 2025

Opening karakia

Tūtawa mai i runga

Tūtawa mai i raro

Tūtawa mai i roto

Tūtawa mai i waho

Kia tau ai

Te mauri tū, te mauri ora

Ki te katoa

Haumi e, hui e, tāiki e

Come forth from above,

below, within,

And from the environment

Vitality and wellbeing for all

Strengthened in unity.

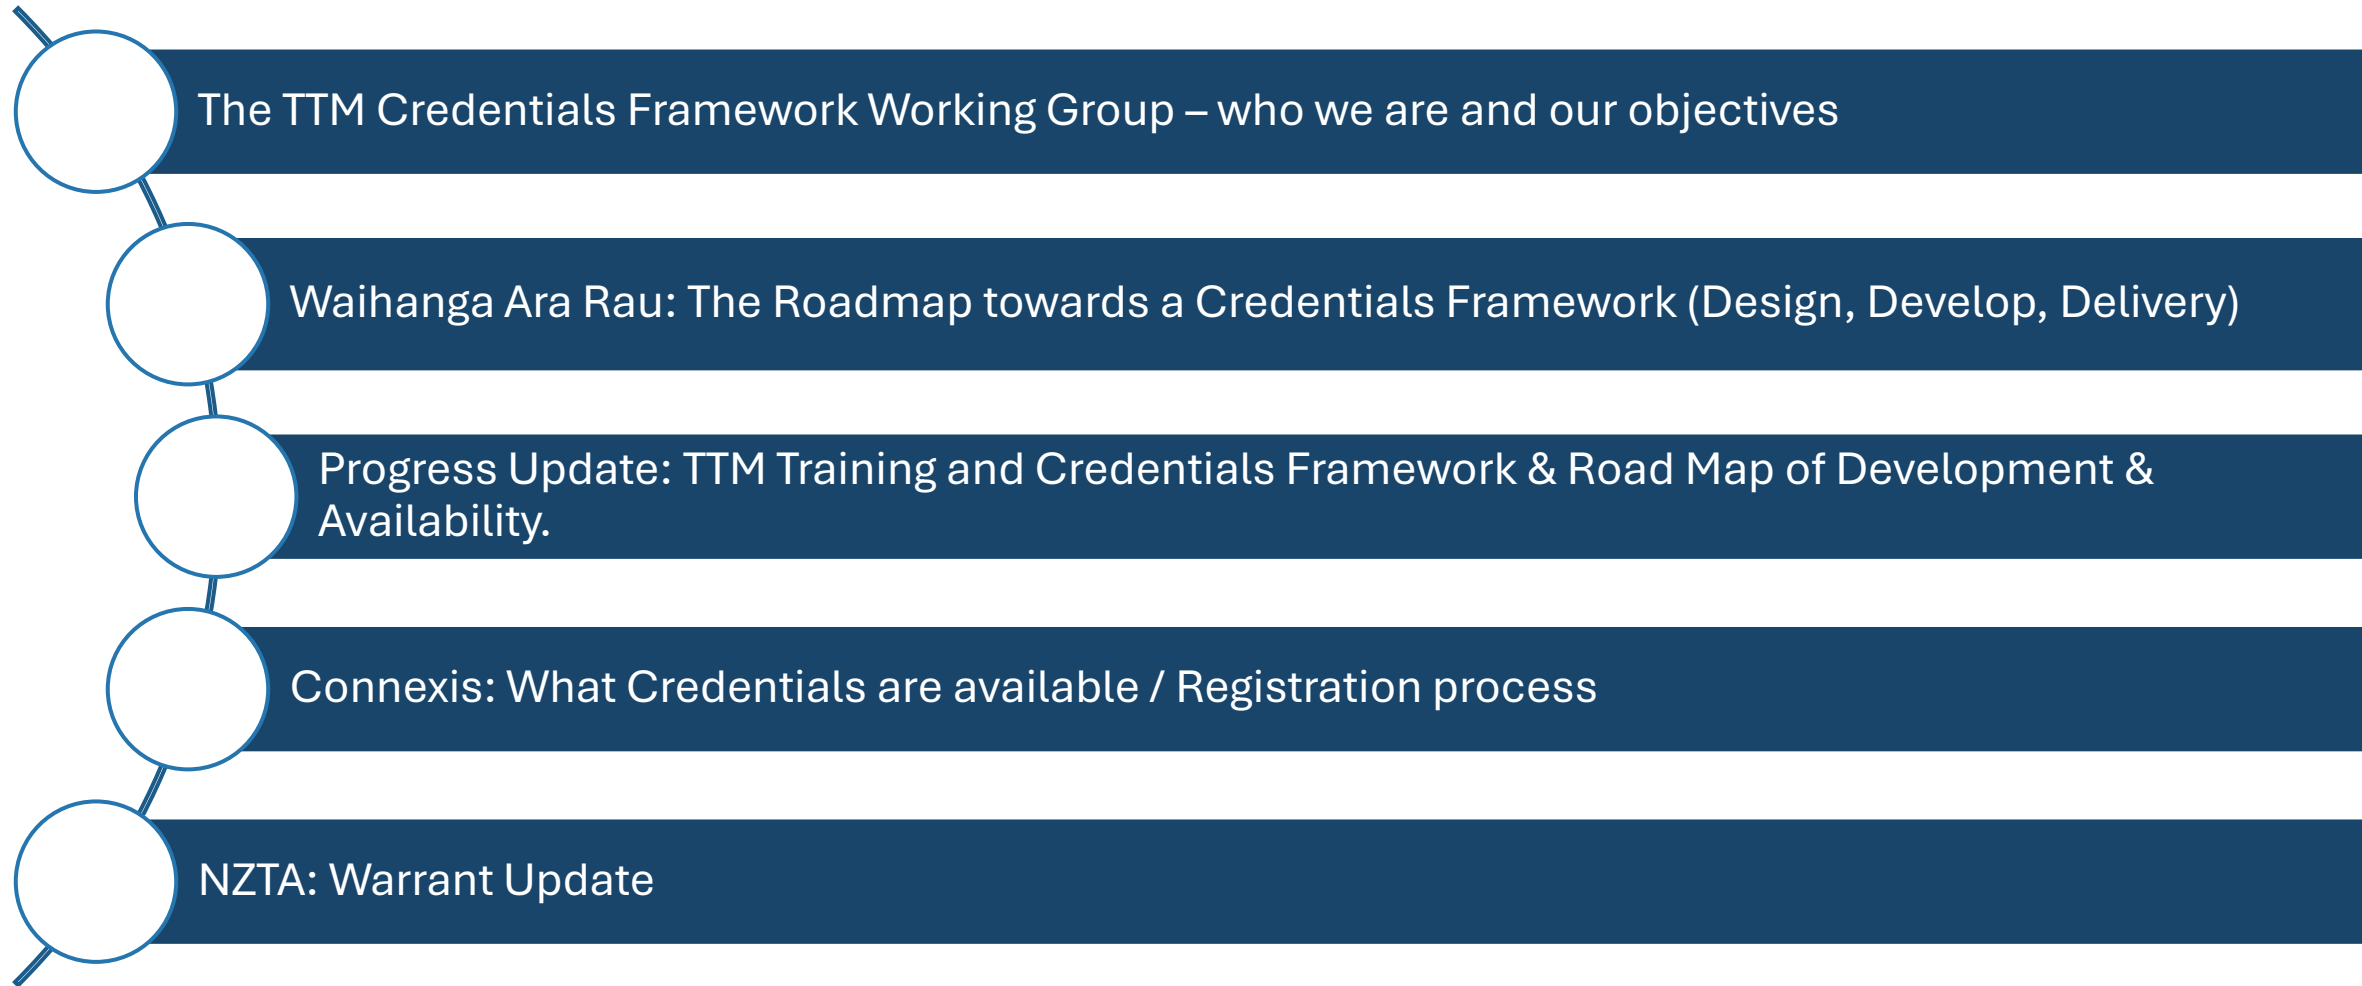

NZGTTM webinar series 2025

Webinar	Topic	Date
Webinar 1: Introducing the NZGTTM	A refresh on what a risk-based approach is about and where the sector is at with the change	Tuesday 25 March 2025, 2.30pm
Webinar 2: TTM Credentials Framework - overview	For anyone who wants to learn about the TTM Credential Framework development, micro-credentials available now, and what you can expect in 2025.	Tuesday 8 April 2025, 2:30pm
Webinar 3: TTM Competency - what you need to know now	From a practical perspective, we'll discuss what people need to do right now to show competency.	Wednesday 30 April 2025, 2:30pm
Webinar 4: Procurement	Primarily for clients and project managers; but may be of interest to supplier contract managers.	Tuesday 20 May 2025, 10:30am
Webinar 5: How to do a risk assessment	A step-by-step session explaining the importance of risk management and practical exercises to teach people how to do risk assessments.	Tuesday 10 June 2025, 10:30am
Webinar 6: Assurance	While every PCBU should have their own audit and assurance programme, we look at what's happening in this space across the sector.	Tuesday 1 July 2025, 2:30pm
Webinar 7: Wrap-up session	Dedicated open FAQ session.	Tuesday 15 July 2025, 2:30pm

TODAY

What we'll cover today

THE TTM CREDENTIALS FRAMEWORK WORKING GROUP

Betty Mitrova
Tier One
Chairperson:
TTM Credentials
Framework Working
Group

Paul Tyson
Tier One

Bruce Goodall
Road Marking
Federation

Kim Laurenson
NZTA / Waka Kotahi

Lina Tyrell
Worker
Representative

Melanie Muirson

Sue Roberts
Connexis / Te Pukenga

Our working group objectives

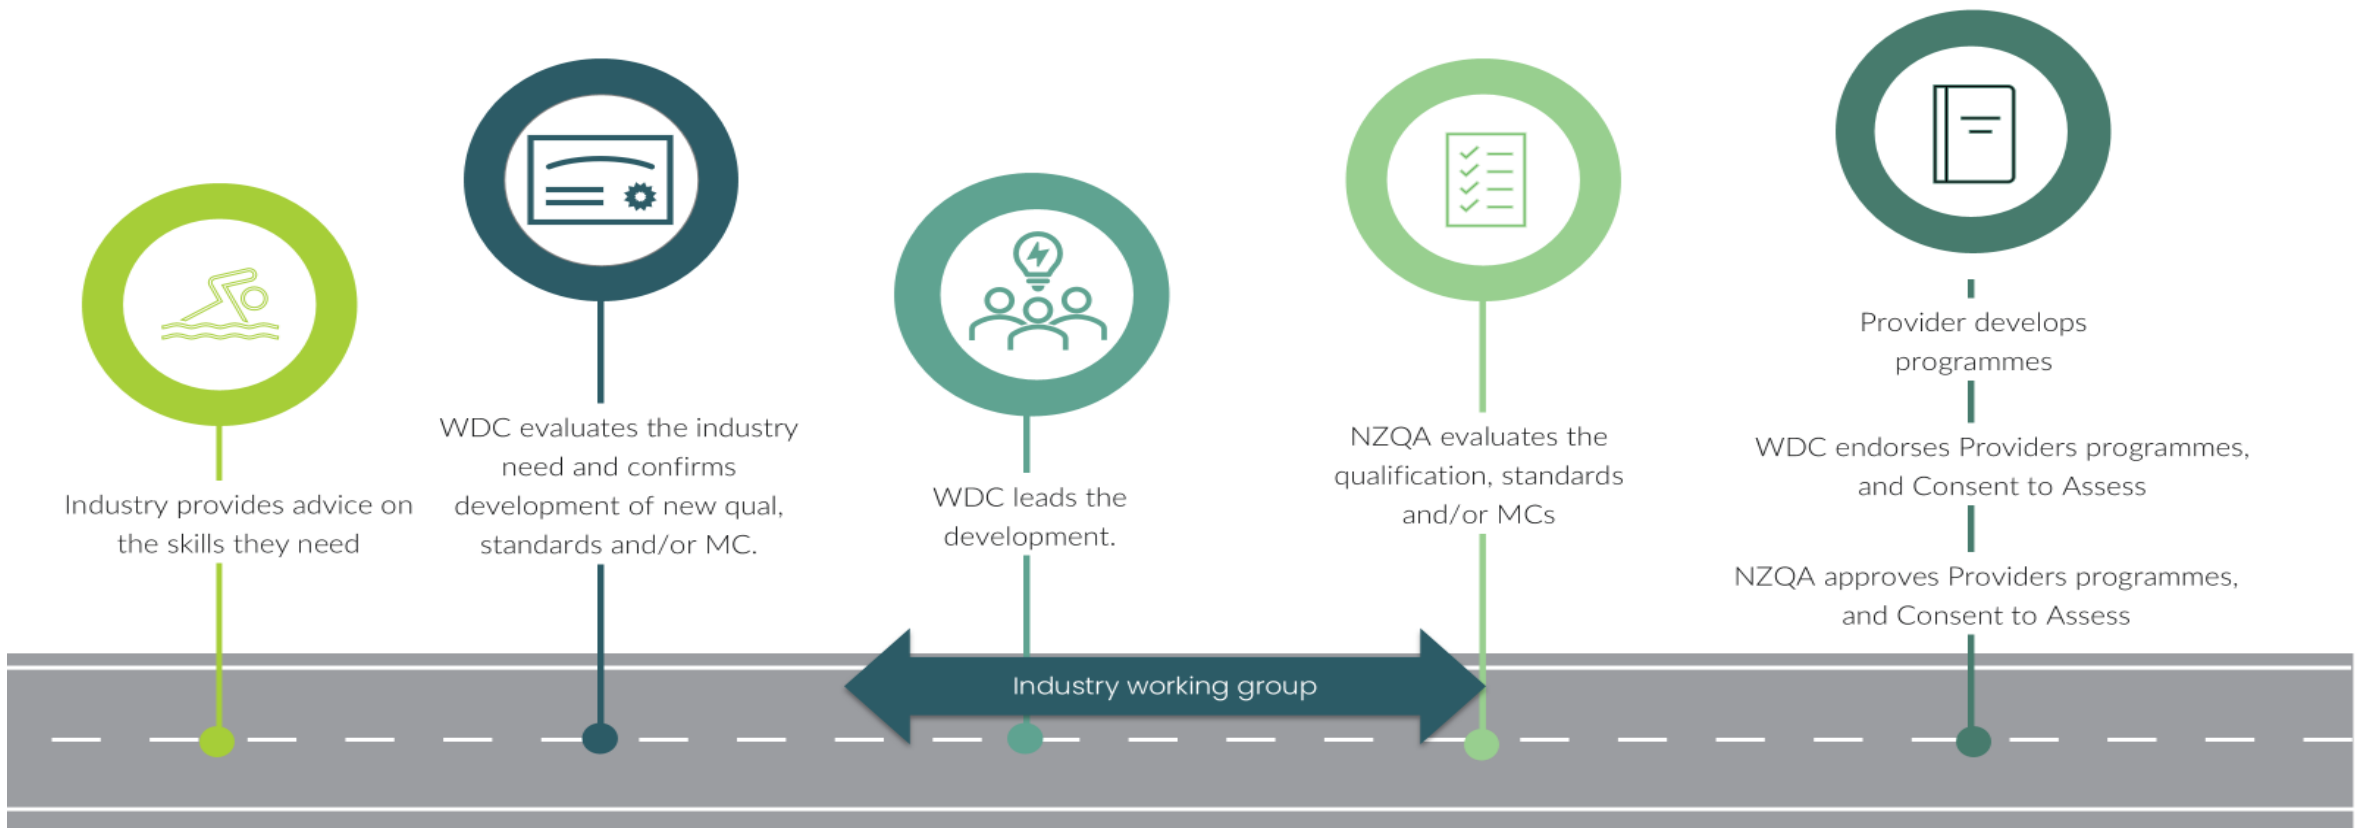

TTM Credentials
Framework
Implementation
(Support the Design,
Development and the
Delivery of the
TTMCF)

Support TTM Industry
transition to the
Credentials
Framework

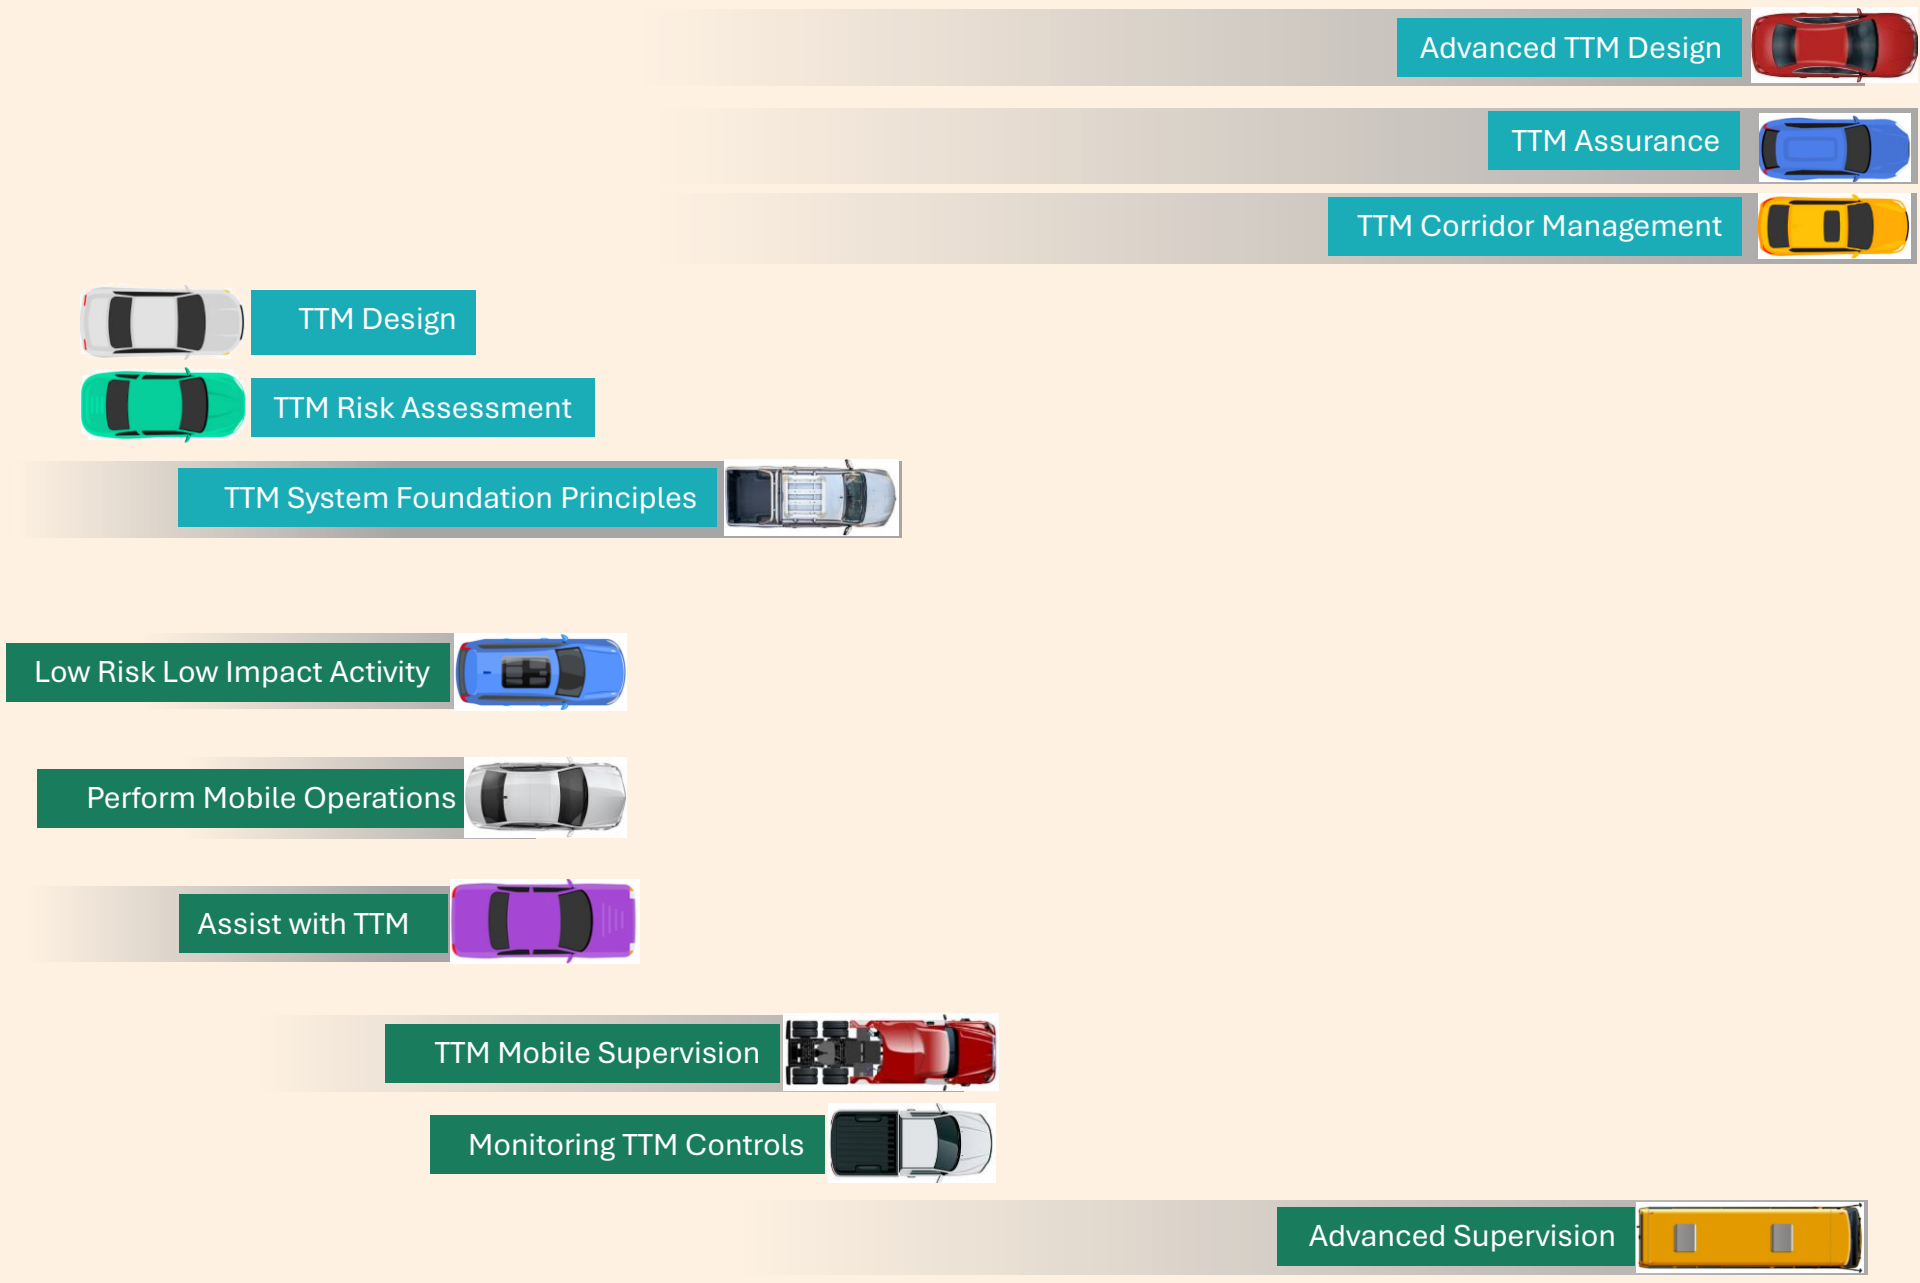

Maintaining long-term
Credentials
Framework Working
Group functions
(Representation,
refinement, and
continuous
improvement)

Roadmap towards a TTM Credentials Framework

Qualification Development

TTM CREDENTIALS FRAMEWORK – ESTIMATED TIMELINE OF DELIVERY

CREDENTIAL	
TTM SPECIALISATION CREDENTIALS	TBA - Advanced TTM Design (L5)
	TBA - TTM Corridor Management (L4)
	TBA - TTM Assurance (L4)
	TTM Design (L4) SS 33254 / MC 4922
	TTM Risk Assessment (L4) SS 33252 & SS 33253 / MC 4923
	TTM System Foundation Principles (L4) SS 40515
TTM DELIVERY CREDENTIALS	Apply control measures to low risk, low impact activity (L3) SS 40231 / MC 5148
	Perform mobile operations (L3) SS 40232 / MC 5150
	Assist with TTM... (L3) SS 40233 / MC 5149
	TTM Mobile supervision (L4) SS 40232 / SS 40517
	Monitoring TTM controls (L4) SS 41506
	TBA - Advanced Supervision (L5)

Low risk Lineman example...

MC in TTM: Risk Assessment (Level 4)

This course is designed for professionals with a health and safety role or responsibility in ensuring safe outcomes for activities conducted in, or impacting, the road corridor.

This includes anyone involved in temporary traffic management design, engineering, corridor management, planning, reviewing, assurance, regulatory and/or network access functions.

MC in TTM: Design (Level 4)

This course is designed for people who develop traffic management plans and need to understand the importance of, and principles behind, robust risk assessment and management.

It includes skills required to address the safety of relevant personnel who work with traffic management plans, including workers on a road or roadside temporary traffic management activity.

Launching soon:

- ⬆ MC in TTM: Apply controls to Low-risk, Low-impact Activities in the Road Reserve (Level 3)
- ⬆ MC in TTM: Assist with TTM within the Road Reserve (Level 3)
- ⬆ MC in TTM: Mobile Operations (Level 3)

To enroll or to find out more, check out the TTM page on our website:

www.connexis.org.nz/qualifications/temporary-traffic-management/

NZTA update

There are 4 warrants still being registered into the NZTA TTM training database:

- Inspector, STMS mobile non-practising, and STMS mobile will stop being offered as warrants when there is training and assessment on the NZQCF available to industry that covers equivalent skills.
- The timeline on this is yet to be determined, as we await confirmed release dates from training providers.
- We are aiming for KCTL warrants to be phased out from the NZTA TTM training database in the next few months. We are working with WasteMINZ to assist with the transition and transfer of information to an appropriate alternative and safe location.

Closing karakia

Hoea ki uta

Hoea ki tai

**Hoea ki te kotahitanga o tātou
katoa**

Kia māia

Kia ngākau aroha

Eke panuku

Eke Tangaroa

Haumi ē, Hui ē,

Tāiki ē

Journey from the mountains
to the sea

Journey safely together united as one

Be brave

Be caring

Acknowledge the unseen forces
of the land and sea to inspire

success and achievement

Come together, gather together

United together
