

Case study template - New Zealand guide to temporary traffic management

(Enter location)

(Enter supplier name)

Case study name – before description

Add description of the work activity e.g. cyclic crew replacing threshold sign at Ohaewai.

CoPTTM approach:

Add image

Note: use bullet points to describe what the site / TTM approach would be under the CoPTTM

Case study name – after description

Add description of the work activity e.g. cyclic crew replacing threshold sign at Ohaewai.

Applying the NZGTTM approach:

Add image

Note: use bullet points to describe what the site / TTM approach would be under the NZGTTM

Case study – describe lessons learnt

Add description of the work activity e.g. cyclic crew replacing threshold sign at Ohaewai.

Learnings

Add image

Note: Use bullet points to describe what benefits were gained from using the NZGTTM approach / making changes.

E.g. Less / more TTM, insights from the road crew about the process they followed, setup and pack down and how they felt working onsite.
